Abdumo'min Abdurasulov

Software Engineer | Frontend Specialist with Backend Expertise

aabdugani03@gmail.com +998 93 692 51 10 Toshkent, Uzbekistan abdumomin.uz GitHub Telegram LinkedIn

Summary

Software Engineer focused on building scalable, maintainable, and high-performance web applications.
I work primarily with TypeScript, React, Next.js, Vue.js, and Node.js, while also building backend services with NestJS and Express.js. I enjoy working across the stack when a problem requires both strong frontend architecture and reliable backend systems.

Experience

Xpress Auto Transportation Remote
Frontend Team Lead Oct 2025 — present

- Developed and maintained logistics and CRM features using Vue.js, React, and Next.js.
- Integrated REST APIs and implemented responsive, user-friendly interfaces for internal business applications.
- Improved application performance and fixed production issues to ensure a stable user experience.
- Collaborated with cross-functional teams using Git and participated in code reviews and feature delivery.

Projects

Taqvo Jan 2026 — Apr 2026

- Developed a full-stack Islamic platform featuring prayer times, Qur'an memorization tools, and daily religious resources.
- Built REST APIs using NestJS and Prisma, with PostgreSQL for data management and Redis for caching.
- Developed responsive frontend interfaces with Next.js and integrated backend services for a seamless user experience.
- Implemented authentication, API integration, and optimized application performance.

Next.js, NestJS, Prisma ORM, PostgreSQL, Redis, TypeScript
